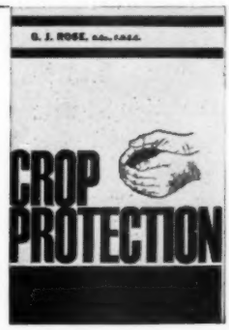
CROP PROTECTION

G. J. Rose, B.Sc., F.R.E.S.

This is a practical guide to crop protection from the initial seed stage to the stored product; it also has a chapter devoted to the protection of livestock. It will be invaluable in the planning of an intelligent programme of measures for combating insect pests, fungus diseases and competing weeds.



Second edition, Demy 8vo. 490 pages. 109 plates. 22 figs. 84s. net
